

Unit: 3.8 – Graphing

Key Learning

To enter data into a graph and answer questions.

To solve an investigation and present the results in graphic form.

Key ResourcesKey Vocabulary

Graph – a diagram showing the value of objects.

Field – a part of a record.

Data – facts and statistics collected together for reference

Bar chart – a graph in which the numerical amounts are shown by the height or length of lines or rectangles of equal width.

Block graph – a graph where a block represents one item.

Line graph – a graph where a line is used to show an amount.

Key Images

Insert the name of the graph here.

Add and remove a row from the graph.

Vertical Bar Chart

Horizontal Bar Chart

Block Graph

Line Graph

Key Questions

What is a graph?

A diagram representing part of a set of data. Graphs can be drawn by hand or on the computer. There are different types of graphs.

What are the frame lines on the graph called?

They are the axes. The axis that goes up and down (vertical) is called the 'y' axis and usually shows the amount. The axis that goes across (horizontal) is called the 'x' axis and shows what is being measured.

What different kinds of graphs are there?

There are lots of different types of graphs including line graph, bar chart and pie chart.
