

Creative Homework-Autumn 1 2023

This term our learning challenge question is 'How am I Making History?'

As part of the homework this term, we would love for you to create your own piece of work based on the topic.

Some ideas we would love to see include:

- Making a family tree.
- A timeline of key events/milestones in your life.
- Create a scrapbook of special events, milestones or birthdays from when you were born until now.
- Talk to your parents/carers, grandparents or other important members of your family or community about what childhood was like for them growing up and create a piece of work telling us all about it.
- Research what childhood was like in the past and draw, write, collage something to show and discuss.
- Create a time capsule with objects, photos, drawings, etc to show children in the future what our childhood is like now.

These are just some ideas to get you started, we look forward to seeing your creative homework projects in the last week of term.

The Key Stage 1 team.
